Commission Structure and Earnings Potential

Estimated annual earnings for NuRevr partners
based on the partner adding 2.5 new non profits per week on average

NuRevr partners can earn income from three distinct revenue sources, as well as an additional earning opportunity from auxiliary services. Here's a breakdown of each source and the estimated annual earnings:

Revenue Source #1

On-boarding Nonprofits Advertising

- Weekly revenue: \$1,250
- Estimated annual earnings: \$65,000 (based on on-boarding an average of 2.5 new nonprofits per week)

Revenue Source #2

Cause Coupon Program Purchases - Level 1

- Number of bags distributed per week: 1,250
- Percentage of bag recipients who purchase the coupon program (Level 1): 25%
- Weekly revenue: \$1,565
- Estimated annual earnings: \$81,380 (based on the assumptions provided)

Revenue Source #3

Cause Coupon Program Purchases - Level 2

- Number of bags distributed per year: 65,000
- Number of times each bag is shared: 20
- Conversion rate: 2%
- Annual revenue: \$130,000 (based on the assumptions provided)

Additional Earnings: Auxiliary Services

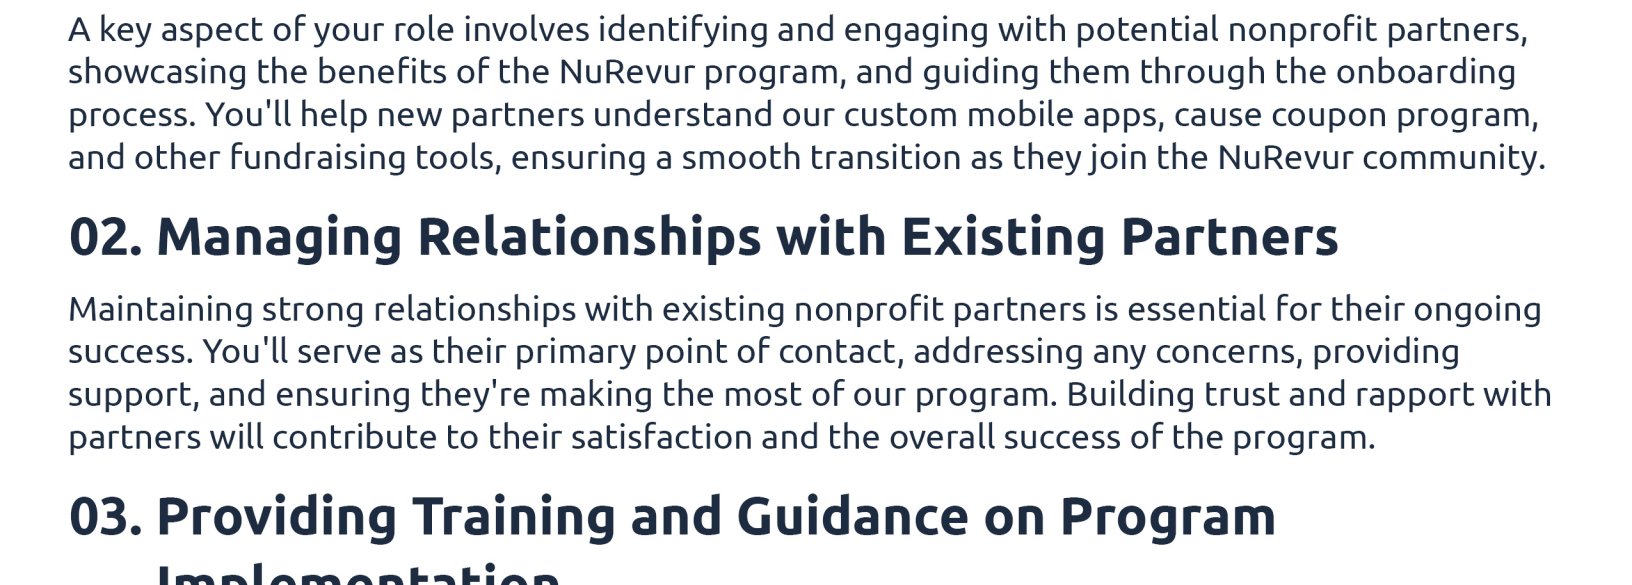

NuRevr partners also earn 0.33 basis points from revenue generated through auxiliary services. The estimated earnings from auxiliary services will depend on the specific services offered and the revenue generated from those services.

Total Estimated Annual Earnings

Combining all three revenue sources and the additional earnings from auxiliary services, the estimated annual earnings for a NuRevr partner would be: \$65,000 (Revenue Source #1) + \$81,380 (Revenue Source #2) + \$130,000 (Revenue Source #3) + Earnings from Auxiliary Services = Total Annual Earnings

Since the earnings from auxiliary services will vary, it's important for partners to consider the potential revenue from these services when estimating their overall earning potential. The NuRevr Partner Program offers a comprehensive and lucrative opportunity for dedicated and successful partners.
